FREE BUYER GUIDE · TEAM RBR

The Viewing Checklist

Take this to every viewing in George. Tick as you go, and write down anything that fails so you can ask about it before you make an offer.

OUTSIDE

- [ ] **Roof and gutters.** Look for sagging, rust, missing tiles and gutters pulling away. If not: ask when the roof was last repaired and get a roof inspection quote.
- [ ] **Walls and boundary.** Check for big cracks, damp patches at the base of walls, and the state of the boundary wall or fence. If not: ask the seller about it and note it for your offer.
- [ ] **Drainage.** Look at where water runs when it rains. Puddling against the house is a warning sign. If not: ask whether the property has had water problems.

INSIDE

- [ ] **Open every tap and flush every toilet.** Check the pressure and how fast the water drains. If not: low pressure or slow drains can mean plumbing work.
- [ ] **Look up.** Stains or bubbling paint on ceilings and cornices can point to roof leaks. If not: ask what caused it and whether it was fixed.
- [ ] **Switch on lights and test plugs.** Ask whether the electrical compliance certificate is current. If not: ask the seller to confirm who will arrange it.
- [ ] **Open windows and doors.** Sticking doors and windows can be a sign of movement. If not: note it and ask.

PAPERWORK AND QUESTIONS

- [ ] **Ask what stays.** Curtains, light fittings, the pool pump, the alarm system. Get it in writing in the offer.
- [ ] **Ask about monthly costs.** Rates, levies (if it is in an estate or complex) and any special levies. If not: ask for the latest statements before you sign.
- [ ] **Ask why the seller is moving and how long it has been on the market.** It helps you understand the seller's position.

Found a house you like? Send me a message and I will help you check the comparable sales in that street before you make your offer. WhatsApp or call Ryan on 083 281 7918.

This checklist is a general guide and does not replace a professional property inspection.
