FREE SELLER GUIDE · TEAM RBR

Get your home ready to sell

Small jobs before you list help buyers fall in love with your home. Work through this list, then book your free market analysis to find out where your price should be.

FIX

- [ ] **Leaking taps, cracked tiles and sticking doors.** Buyers notice small faults and assume there are bigger ones. If not: fix them or get a quote to show buyers.
- [ ] **Blown bulbs and broken fittings.** Every light should work on viewing day.
- [ ] **Paperwork.** Find your plans, rates account, levy statements and any guarantees. If not: we can help you request copies.

CLEAN AND DECLUTTER

- [ ] **Clear surfaces and pack away personal items.** Buyers need to picture their own things in the space.
- [ ] **Deep-clean kitchens and bathrooms.** These rooms sell homes.
- [ ] **Tidy the garden and entrance.** First impressions start at the gate.

LIGHT AND SPACE

- [ ] **Open curtains and clean windows.** Bright rooms look bigger in photos and in person.
- [ ] **Move out extra furniture.** Fewer pieces make rooms feel larger.
